# Who are we?

We are a recognized international agency that promotes the educational, personal and social growth of young Latin Americans through the different cultural exchange programs of study and work that we represent. We provide advice and support in the process of selection and application as an Au Pair.

Founded in 2005, as pioneers of the Au Pair Program in Latin America; more than 12,000 effective processes consolidate us as the leading company in South America, which encourages us to remain committed to all our young people by bringing new opportunities through Global Exchange International.

The programs we promote are monitored and regulated by the different Embassies, Consulates, State Departments, and Immigration Offices as appropriate in the destination country.

You will have the opportunity to travel to the country that fascinates you, visit wonderful places that you would have never imagined. Live unique moments and interact with young people from all over the world, study, practice, and perfect the language you love.

In addition, you can acquire a personal, social and cultural enrichment abroad; these are some of the privileges that you can enjoy being an application of the exchange programs that we promote.

# With Global Exchange

You will have the opportunity to travel to the country that fascinates you, visit wonderful places that you would never have imagined.

Live unique moments and interact with young people from all over the world, study, practice, and perfect the language you love.

You can also acquire personal, social, and cultural enrichment abroad; these are some of the privileges that you can enjoy by applying to the exchange programs that we promote.

# What is being an Au Pair?

A young person who, in order to improve his or her language skills, travels abroad and lives temporarily with a family that takes him or her in as a responsible adult and older brother or sister to their children.

The Au Pair will be able to improve his/her language skills thanks to the study and interaction with the family members and the cultural immersion of the country.

During the period of stay, the Au Pair must study the language of his/her interest.

(These academic credits must be demonstrated according to the policies that regulate the program in each destination).

The Au Pair helps the host family in the care of the children for a certain number of hours and in exchange for this support, receives accommodation, food, accident insurance, and monthly payment.

# Major Benefits

## Experience for life

The learning you gain during the program does not end when you return but is useful for life.

## Variety of destinations

We provide programs for men and women in destinations such as North America, Europe, and Asia.

# A support network

We have our agencies nationwide in Bogota, Cali, Pereira, Armenia, Medellin, and Tunja. Also at the international level in the USA, Panama, Bolivia, Peru, Venezuela, Mexico, Paraguay, Guatemala, Ecuador, Honduras, Costa Rica, Chile, Argentina, and the Dominican Republic.

# Language learning

The need to be able to communicate in their host country will allow applicants to develop skills they did not know they had that will lead them to successfully learn and manage a second language.

# Building multinational links

Our applicants will attend institutions where they will meet many local and international students. At the end of the program, the participant will have contacts from different cultural and social backgrounds that he/she will be able to take advantage of in the future. This is a transformational experience to gain a new perspective of the world by becoming a global citizen.

Living with a host family abroad, attending an institution, and making friends from all over the world is one of the best ways to get a global view of the current political, economic and social situation.

# Better integration into the labor market

Companies are increasingly asking for full knowledge of one or more languages or international experience, and this opportunity will allow students to meet both of these requirements at the same time.
